WHAT IS CLAIMED IS:

alla 3/

A container comprising a top and bottom side walls opposing each other, front and back side walls opposing each other and left and right side walls opposing each other and a dispensing opening, characterized in that the angle between the front and bottom wall is greater than 90° but less than 180° and the dispensing opening is located in the top or front (3) walls or on the intersection between the top and front walls.

- 2. A container according to claim 1 wherein the angle between the front side and the bottom side wall is between 95° and 130°.
- 3. A container according to claim 1 wherein the angle between the front side and the bottom side wall is between 95° and 115°.
- 4. A container according to claim 1 which is manufactured by folding a single piece of material.
- 5. A contained according to claim 1 wherein the material from which the container is made is selected from cardboard, moisture protected cardboard, plastic or mixtures thereof.
- 6. A container according to claim 5 made from moisture protected cardboard which has been treated with a moisture protective barrier.
- 7. A container according to any of claim 1 made from plastic.
- 8. A container according to claim 1 comprising a substrate-dispensing aid selected from an inclined bottom side, an inclined false bottom side, a spring and mixtures thereof.
- 9. A container according to claim 1 wherein the dispensing opening is located on the intersection between the top and front walls.
- 10. A container according to claim 9 wherein the dispensing opening is located on the intersection between the top and front walls and extends vertically downward toward the intersection of the front and bottom wall.

- 11. A container according to claim 1 comprising vertically stacked substrates.
- 12. A container according to claim 11 wherein the length of the bottom side of the container is less than the height of the substrate.
- 13. A container according to claim 1 comprising a substrate holder.
- 14. A container according to claim 13 wherein the holder is located on the left or right side of the container.
